PIWIK Web Analytics

Piwik is the only one analytics tool certified by the CNIL. We installed it on our own servers. There are no third parties involved and the IP addresses are anonymized. It allows us knowing our internet traffic and basic indicators. Nothing more! And if you want to opt-out of being listed by our own Piwik installation, feel free to do so:

You may choose not to have a unique web analytics cookie identification number assigned to your computer to avoid the aggregation and analysis of data collected on this website.
To make that choice, please click below to receive an opt-out cookie.
